Program/s

- ADHC Adult Day Health Care
- CBAS Community-Based Adult Services
- ADP Adult Day Program
- ADCRC Alzheimer's Day Care Resource Center

The goal of the Adult Day Health and Social Day Care programs is to promote health, independence and dignity while enhancing the quality of life of those we serve through a caring, stimulating and enjoyable environment. A separate, specialized program is provided for persons with Alzheimer's or a related dementia. Two bicultural/bilingual programs serve Russian and Afghani participants. A day at Mt. Diablo Center may include nursing care, clinical therapies, as well as social and recreational activities. Two important benefits for participants are the friendships made and the sense of community these friendships foster.

Who We Serve
